

About Predii

Predii is an Enterprise AI Software Company based in Palo Alto, CA and Pune, India. Our specialized, validated AI platform has been purpose-built to extract predictive and prescriptive insights from unstructured textual, sensor, and procedural data in the automotive aftermarket and service business. Predii's patented AI engine is currently processing 2+ billion historical repair jobs monthly. Our 8+ years NLP and domain expertise enable industry leading companies such as Snap-on, Epicor, Mercedes-Benz, PepsiCo, and Valvoline to leverage previously unused data to power predictive solutions, increase aftersales revenue, drive product innovation, and support data-driven decision-making strategies.

Predii has been recognized by Gartner, ABI Research, and the Industrial IoT Solutions World Congress for our focus in Applied AI in repair and maintenance.

About this Role: Automotive Data Analyst

We are looking for Automotive Technicians who have a deep interest and/or background in data and software and are interested in supporting a successful Automotive AI Startup full- or parttime.

Your role will be to analyze repair orders, invoices with parts, labor, warranty data, and diagnostics data (PIDs) for specific manufacturers. You will be working with software engineers in the company in enhancing and testing our products and solutions.
