

About Predii

Predii is an Enterprise AI Software Company based in Palo Alto, CA and Pune, India. Our specialized, validated AI platform has been purpose-built to extract predictive and prescriptive insights from unstructured textual, sensor, and procedural data in the automotive aftermarket and service business. Predii's patented AI engine is currently processing 2+ billion historical repair jobs monthly. Our 8+ years NLP and domain expertise enable industry leading companies such as Snap-on, Epicor, Mercedes-Benz, PepsiCo, and Valvoline to leverage previously unused data to power predictive solutions, increase aftersales revenue, drive product innovation, and support data-driven decision-making strategies.

Predii has been recognized by Gartner, ABI Research, and the Industrial IoT Solutions World Congress for our focus in Applied AI in repair and maintenance.

About this Role: Content Analyst

As a Content Analyst at Predii, your chief responsibility will be to analyze, assess, and interpret data coming from customers in the automotive and service ecosystem. You will be parsing free text, IoT, surveys, and more for the critical insights they contain, and help direct our AI platform's interpretation engine. As an authority with the deepest understanding of our customer's data, you will be the go-to for validation of results. You will be deeming what is important in the data, and what is noise. You will be analyzing and visualizing data post processing to support Project Management, and Marketing efforts.
